PROFESSIONAL PROFILE

Junior DevOps & DevSecOps engineer focused on infrastructure, automation, CI/CD and observability in Linux and containerized environments. Experience at SCHFEC on the infrastructure of CLAPA with Terraform, Ansible, Docker and GitLab CI/CD, and on observability with Prometheus, Grafana and Loki. Previously a DevOps intern at Coral-IO, working with New Relic, Ansible and Kubernetes. Graduated from ESPRIT in 2025.

EXPERIENCE

DevSecOps Engineer · SCHFEC — Jul 2024 – Present

- Set up and manage the infrastructure of **CLAPA**, a B2B SaaS platform, across development and staging environments.
- Automate provisioning and configuration with **Terraform** and **Ansible** on **Linux**, and secure the systems.
- Containerize the application with **Docker** and **Docker Compose** and run the staging environment on Vercel, Render and Neon.
- Build and maintain **GitLab CI/CD** pipelines and configure **Nginx**, **TLS** and **DNS**.
- Set up metrics, logs, traces and alerting with **Prometheus**, **Grafana**, **Loki**, **Tempo**, **Alertmanager** and the **OpenTelemetry Collector**.

DevOps Engineer Intern · Coral-IO — Jan 2024 – Jul 2024

- Worked on **New Relic** observability: infrastructure monitoring, APM, synthetic monitoring, dashboards and alerting.
- Deployed New Relic agents and integrations with **Ansible** on a **Kubernetes** environment.
- Worked with **Helm**, **Docker**, **Harbor**, **Prometheus**, **HAProxy**, **Proxmox**, **Linux** and **GitLab**.

PROJECTS

DevOps CI/CD Pipeline — ESPRIT · Academic Project

Jenkins CI/CD pipeline with JUnit, SonarQube, Nexus, Docker Compose and JMeter for a Spring Boot and Angular application, monitored with Prometheus and Grafana.

CareerTN — ESPRIT · Academic Project

Private OpenStack cloud using Nova, Neutron, Cinder, Swift and Horizon. Kubernetes provisioned through Magnum and Azure AKS for a containerized Spring Boot, Angular and MySQL application.

SKILLS

Infrastructure as code: Terraform, Ansible
Cloud: OpenStack, Azure AKS
Containers & orchestration: Docker, Docker Compose, Kubernetes, Helm
CI/CD: GitLab CI/CD, Jenkins, Nexus, Git
Observability: Prometheus, Grafana, Alertmanager, Loki, Tempo, OpenTelemetry Collector, New Relic
Systems: Linux, Nginx, TLS, DNS
Languages: Native Arabic, fluent English, fluent French

EDUCATION

Diplôme National d'Ingénieur en Informatique · ESPRIT — 2025

CERTIFICATIONS

AWS Certified Cloud Practitioner — Jul 2023 – Jul 2026
AWS Solutions Architect – Associate — Preparing
